GENERAL INFORMATION

Before completing this form, please read the relevant sections in the *Lifelong Learning Programme Guide for Applicants* and the 2008 Call for Proposals published by the European Commission and by your National Agency, which contain additional information on closing dates, National Agency addresses to which the application must be sent, and specific priorities for that year. Links to these documents and further information such as Frequently Asked Questions can be found on the Lifelong Learning Programme website:

http://ec.europa.eu/education/programmes/llp/index_en.html

This form should be completed by the **coordinator** of the proposed Partnership, in cooperation with the partners, giving full details of the Partnership including the details of all partners and all planned mobilities and grant requests for every partner. The coordinator must send a copy of the completed form to each partner. The coordinator and the partners complete and sign the declaration (section 4) and fill the information in part 1.2 on the cover page of their individual copies and submit the form to their National Agencies by **15 February 2008 (date as postmark)**. The partners must not change any of the information contained in the form completed by the coordinator; all copies must be identical except for the Declaration and the fields under 1.2 which should be filled separately by all applicant institutions on their copies of the form. Please note that the form should be completed well in advance before the deadline so that each participating institution is able to post its copy of the application on time.

Please note that each National Agency may request applicants to submit additional information in support of a Partnership application. Each applicant should check on the website of its National Agency before submitting the form.

CHECKLIST

Before submitting the application, please make sure that it fulfils the requirements listed below.

- .. The application fulfils the application procedures and has been submitted respecting the closing dates set out in the Call for Proposals.
- .. The form is not hand written (except for the Declaration and part 1.2).
- .. The form has been completed **jointly** by the whole Partnership and all partners have received a copy.
- .. The form has been completed in full.
- .. The Work programme (section 6.1) contains planned mobility activities of each institution in the Partnership and the Finances table (section 7) contains grant requests for each partner.
- .. The form has been completed using the communication language of the Partnership (this must be one of the official languages of the EU).
- .. **Multilateral Partnerships:** The partnership consists of institutions located in at least three of the countries participating in the Lifelong Learning programme. **Bilateral Partnerships:** The partnership consists of two institutions, each one located in one of the countries participating in the Lifelong Learning programme. The eligible countries are the 27 Member States of the European Union, Norway, Liechtenstein, Iceland and Turkey.
- .. At least one participating institution is located in a Member State of the European Union at the starting date of the Partnership.
- .. Each participating institution has checked with the National Agency in its country that it is eligible to participate in a Comenius Partnership.
- .. If the application concerns a **Bilateral Partnership**, it must include in its work programme a reciprocal exchange of classes or groups of minimum 10 days involving pupils aged at least 12 (a class or group from one school visits the other, and vice versa). The minimum size of the group participating in each phase of the reciprocal exchange is 10 pupils in the case of "small group class exchanges" and 20 pupils in the case of "large group class exchanges" (depending on the grant amount requested).
- .. The copy submitted to each National Agency has been **signed** by the person authorised to enter into legally binding commitments on behalf of the applicant institution concerned (or a person duly authorised by the legal representative).

Lifelong Learning Programme

- .. Each participating institution has fulfilled its contractual obligations in relation to any earlier grants received from the National Agencies concerned.
- .. Each participating institution has checked with its National Agency whether there are any national eligibility criteria and/or national priorities in addition to the European ones and whether the National Agency requires any additional information to be submitted in support of the application.

2008 National eligibility criteria for Comenius Partnerships for the Slovak Republic

- Only 1 application for LLP partnerships per institution will be accepted. In the case of a joint school, which consists of different levels of education, maximum 2 applications for LLP partnerships will be accepted provided that they will concern different target groups. If an institution submits more than 1 application (in case of a joint school 2 applications), all applications submitted by that institution will be considered not eligible.
- An already existing LLP partnership has to be formally terminated/closed before an institution can apply for a new grant. Applications from ongoing partnerships will be considered ineligible.
- If the Partnership language of communication in which the application is submitted is different from Slovak language, a translation of part 5 and 6 in Slovak language must be submitted.
- An applicant has to submit 1 original and 2 copies of an application for LLP partnerships and **in electronic version** as well (CD, floppy disk).

2008 National Priorities for the Slovak Republic

- Digital educational content and services
- Supporting entrepreneurship and links with the world of work

4. DECLARATION

To be signed by the person legally authorised to enter into legally binding commitments on behalf of the applicant institution. This Declaration must be separately completed and signed by each applicant institution in its copy of the application.

I, the undersigned,

Request from my National Agency a grant for my organisation as set out in section 6 of this application form.

Declare that:

- All information contained in this application, is correct to the best of my knowledge.
- The organisation I represent has the adequate legal capacity to participate in the call for proposals.

EITHER

The organisation I represent has financial and operational capacity to complete the proposed action or work programme
OR

The organisation I represent is considered to be a "public body" in the terms defined within the Call and can provide proof, if requested of this status, namely: It provides learning opportunities and

- Either (a) at least 50% of its annual revenues over the last two years have been received from public sources;
- Or (b) it is controlled by public bodies or their representatives

I am authorised by my organisation to sign Community grant agreements on its behalf.

Certify that:

The organisation I represent:

- is not bankrupt, being wound up, or having its affairs administered by the courts, has not entered into an arrangement with creditors, has not suspended business activities, is not the subject of proceedings concerning those matters, nor is it in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- has not been convicted of an offence concerning its professional conduct by a judgment which has the force of 'res judicata';
- has not been guilty of grave professional misconduct proven by any means which the National Agency can justify ;
- has fulfilled its obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which it is established or with those of Belgium or those of the country where the grant agreement is to be performed;
- has not been the subject of a judgment which has the force of 'res judicata' for fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests;
- following another procurement procedure or grant award procedure financed by the Community budget, has not been declared to be in serious breach of contract for failure to comply with its contractual obligations.

Acknowledge that:

The organisation I represent will not be awarded a grant if it finds itself, at the time of the grant award procedure, in contradiction with any of the statements certified above, or in the following situations:

- subject to a conflict of interest (for family, personal or political reason or through national, economic or any other interest shared with an organisation or an individual directly or indirectly involved in the grant award procedure);
- guilty of misrepresentation in supplying the information required by the National Agency as a condition of participation in the grant award procedure or has failed to supply this information.

In the event of this application being approved, the National Agency has the right to publish the name and address of this organisation, the subject of the grant and the amount awarded and the rate of funding.

I acknowledge that administrative and financial penalties may be imposed on the organisation I represent if it is guilty of misrepresentation or is found to have seriously failed to meet its contractual obligations under a previous contract or grant award procedure.

PROTECTION OF PERSONAL DATA

5. DESCRIPTION OF PROPOSED PARTNERSHIP

Please note that this section must be completed **jointly** by all institutions participating in the Partnership and must be identical in each copy submitted to each National Agency.

5.1 SUMMARY

Summary of the planned Partnership. This description may be used by the European Commission and/or the National Agency when providing information on selected projects, so please be clear and precise and do not exceed 200 words.

The project topic comes out of the current situation when the usage of nature resources endangers the essence of life on the Earth itself and change of the attitude to this particular problem is necessary. Everybody must take part in the environment protection and to do it we need to understand the nature. We want our project to become one of the instruments which will help us. In our project nature is seen as a friend who helps us and gives us a lot good. If this friendship has to be honest we must learn to use not misuse the offered. Consequently one of our main aim is to provide right and responsible attitude to the usage of the natural resources and environment protection. We will also focus on application of gained knowledge into everyday life.

The whole project is divided into two phases (years) main questions:

1. How do the particular countries use the natural resources? (Map the situation and compare the results)
2. What ecological print do I and my family leave and how can we pay back the generosity? (Approach the problem to region and local area. Suggestion for situation improvement, partial projects leading to real improvement of (environmental) local situation).

5.2 CONTEXT AND MOTIVATION

a) What is the general context of **each institution** involved in the proposed Partnership? Is there a specific context as for example: Are the participants in disadvantaged areas? Do they have specific needs for pupils, staff or other groups, e.g. pupils at risk of social exclusion, pupils with special needs, migrants, refugees? If so, please explain.

b) Why do the participating institutions want to take part in European cooperation activities such as this Partnership? What do they expect to gain from European cooperation?

a) Czech Republic

School isn't situated in social-economically disadvantaged area. Relatively high number of pupils with special learning needs imposes requirements on teachers.

Slovakia

We work in an advantage area. We do not face any specific needs from pupils or staff, we just have several (not so many) pupils with special needs – there are kids with problems in education, but they can be found at every school in Slovakia (no migrants, no refugees).

Lithuania

Utena is provincial region, which is subsumed to geographically disadvantageous area in the view of the country.

Utena Krasuona Basic school is situated in geographically disadvantageous location in the view of the town, because it is in the outskirts of the town. It is rather inconvenient for our pupils to reach other institutions of informal education, that's why our school seeks to provide as many out-of-class activities as possible. Our school is situated in the estate of block of flats and about 20 per cent of them are hostels. Most families are socially insecure: one (or both) parent is unemployed, uneducated, most families are incomplete. Pupils from these families usually experience social exclusion in many situations: they have less opportunities to get a good education, they face a high risk to gain bad habits (smoking, abusing alcohol or drugs), they have less opportunities to develop social values and skills.

Poland

Yes – we have some very poor children in our school (about 20% of them), some from alcoholic families, Those families come from old, poor district of an industrial town. Present revolutions in economy made their economical conditions even worse. But despite such variety of students's social background a lot of our pupils are very gifted. We need to give them support in reaching high-level of education. School must supply them in possibilities of learning foreign languages, use digital facilities, travel abroad, face with multi- culture of Europe.

Turkey

Our institution (school) is in the centre of the city. We aren't in a disadvantaged area. But most of our pupils' families are

Education and Culture DG

PARTNERSHIPS

Lifelong Learning Programme

unemployed and they also have socio-economic problems so we usually face specific needs from pupils. We have got seven defective pupils. They have always needed special interest and we feel we have to show a lot of interest to them.

Bulgaria

Our school is a comprehensive school. It is situated in a residential neighbourhood in the centre of the city. It is the oldest school in the city and we try hard to keep its rich traditions together with the modern world and the newest ideas.

Spain

The school is located in a small touristic town, with about 2500 inhabitants. It hasn't got any cinemas, theatres or shopping centres and it is within an hour distance by car from the nearest big urban area. This means that the character of its inhabitants is conditioned by all these facts.

There are some mentally disabled pupils and we also have children whose parents are immigrant (Ecuador and Dominican Republic). These pupils need adapted contents and a more personalised attention, because the level of their knowledge is different.

The school wants to take part in international cooperation projects, such as comenius 1 & 2, so that the pupils may live experiences that enable them to know, value and respect other ways of living and to compare them with their own.

We want these projects to make our pupils to be willing to know other places and to make them be more tolerant and have a real feeling that they are European citizens, a place where there are many different ways of living but all of them respected. This aspect will promote in them a wish to learn languages.

With this activity we have the intention to change their ways of thinking and to open their views so that they realize that the outside world also offers them a lot of possibilities they can take advantage of to develop themselves in the historic moment they are living.

We think it is an activity that encourage them to meet other people, to get interested in their culture, to develop their knowledge of languages and to try to understand.

Through their experiences, how important is to live in harmony with others and its respecting and solidarity consequences.

b) Czech Republic

We would like to get new knowledge of education in foreign countries, enlarge the knowledge of foreign languages, arrange new friendships and improve our informedness about life in other parts of Europe.

Slovakia

Our institution wants to take part in european cooperation because we want to be member and find new information and offer ours.

Lithuania

Our school takes part in many state and regional projects. The teachers working at our school and the pupils are learning some experience in participating in the international project as well. Participating in this project our school will be able to provide the pupils useful and interesting out-of-class activity, besides we will have better conditions to compete with other schools, which are situated in close area. Also we expect:

- § To create and consolidate for 7-15 years old children for understanding the problems of using the nature resources and ecology;
- § To provide examples of right and responsible attitude to the environment and create suggestions for improving the current situation;
- § To encourage the cooperation between the teachers and the pupils and the participating countries;
- § To develop the creative work, self-education and responsibility both of the pupils and teachers;
- § To improve ICT use
- § To encourage foreign language learning and using and to learn about other countries.

Participating in this project we also seek to cooperate with local organs of government, which are responsible for using and protecting the nature resources and join them in solving the ecological problems and in this way we plan to improve the environment in the near surrounding.

Poland

We have a lot of very good experience in work with the previous, we learned many methods of working with students and shared our experience with other schools, moreover we prepared a lot of materials very useful in teaching. The present project touches problems of environment and is very attractive for us-people living in area damaged by industry. The opportunity to learn more about other nations, culture- sometimes very different than our, problems of our neighbours can be the method of defeat xenophobia or feeling being a margin of Europe. Thanks such project we can feel as much needed as others living on our Planet.

Turkey

We want to know and understand the European culture. Our school, teachers, pupils want take part in this partnership. We also want to introduce our school, education system, thoughts to other cultures.

Bulgaria

We want to take part in European cooperation activities, because we have already had some experience in such kind of partnership. That experience shows that is the right way to learn a lot about other European peoples, to find out our own place in EU and to make our students feel close to the students from other countries. We think that to team up with colleagues and students from different European countries enlarges our minds, changes our way of thinking and makes us more tolerant. We also think that ecological topics are very important and we have to teach young people the right attitude to

Education and Culture DG

Lifelong Learning Programme

the Nature and natural resources.

Spain

We are interested in cooperating in a Comenius Project orientated to care of nature to the features of our environment.

Extremadura, our region, keeps a great deal of natural environment. Our students, as a whole, live in a country atmosphere.

In contrast to what former generations found, communications have allowed rural zones not to be precarious, isolated and reviled any longer. The project may be a good tool to show our students the good aspects of our area and what we can obtain if we take care of it.

The school wants to take part in international cooperation projects, such as comenius 1 & 2, so that the pupils may live experiences that enable them to know, value and respect other ways of living and to compare them with their own.

We want these projects to make our pupils to be willing to know other places and to make them be more tolerant and have a real feeling that they are European citizens, a place where there are many different ways of living but all of them respected. This aspect will promote in them a wish to learn languages.

With this activity we have the intention to change their ways of thinking and to open their views so that they realize that the outside world also offers them a lot of possibilities they can take advantage of to develop themselves in the historic moment they are living.

We think it is an activity that encourage them to meet other people, to get interested in their culture, to develop their knowledge of languages and to try to understand.

Through their experiences, how important is to live in harmony with others and its respecting and solidarity consequences.

5.3 OBJECTIVES OF THE PARTNERSHIP

- What are the concrete objectives of the partnership?
- Explain what subjects or problems you intend to address.
- What approach will you take to achieve your objectives?

- map, identify and compare the situation of using the nature resources in separate countries
- deepen the knowledge of nature and relationship between man and environment from the global, regional and local view
- create conditions for understanding the connection between ecological and economical problems in the view of the sustainable growth
- provide examples of right and responsible attitude to the environment
- arrange direct contacts with the problems of using the natur resources, evaluating the situation and creating suggestions for improving the current state
- aplicate the knowledge obtained in the project in everyday life
- support ICT use
- foreign language learning and using, learn about life in other countries

5.4 PARTNERSHIP AND DISTRIBUTION OF TASKS

Please explain the distribution of tasks between participating institutions and the competences required from each of them. Also explain how you will ensure the active involvement of all partners in common partnership activities.

Distribution of information

- expositions of the materials
- information wall posters in public places
- school web sides – project, links to homepages of the partner schools
- regional media, school magazine
- power point presentation

Project meetings:

- results and continuous evaluation
- introduce the schools, products and arranged activities
- detailed planning particular activities and involving pupils, teachers and community to the activities

Education and Culture DG

Lifelong Learning Programme

5.5 COOPERATION AND COMMUNICATION

Please explain how effective cooperation and communication between participating institutions will be organised.

Communication and cooperation

- e-mail contacts among the partner schools and pupils teams
- Skype, chat, ICQ
- videoconference

Task for all participating school

- elaborate gradual aims
- coordination collectively planned events and their realization at particular schools
- collect and exchange materials
- ensure the evaluation (report sending to the coordinating school)
- keep the documents
- keep contacts among pupils and work teams from partner schools
- project and its results presentation in public
- project meeting make-up

5.6 EUROPEAN ADDED VALUE

What impact and benefits of European cooperation do you expect Partnership activities to have on persons (pupils and staff) and on the participating institutions?

On pupils:

- development the ability of tolerance and so learning about the life in another countries
- improving foreign language communication
- use ICT

On staff:

- learn (about) farther (unconventional) foreign languages
- communicate and cooperate using ICT

On the municipality:

- delegate EU dimension to the region and town

5.7 RELEVANCE FOR THE OBJECTIVES OF THE PROGRAMME

Please tick in the table below, the objectives of the Comenius programme that your Partnership will address, in addition to the first two (if any – leave blank if none):

X	To improve the quality and to increase the volume of mobility involving pupils and educational staff in different Member States
X	To improve the quality and to increase the volume of partnerships between schools in different Member States, so as to involve at least 3 million pupils in joint educational activities during the period of the programme
X	To encourage the learning of modern foreign languages
X	To support the development of innovative ICT-based content, services, pedagogies and practice in lifelong learning
	To enhance the quality and European dimension of teacher training
	To support improvements in pedagogical approaches and school management

Education and Culture DG

Lifelong Learning Programme

5.8 CONTRIBUTION TO THE EUROPEAN PRIORITIES SET OUT IN THE CALL FOR PROPOSALS

Please tick in the table below the European priorities set out in the 2008 Call for Proposals that your Partnership will address (if any):

X	any of the eight key competences set out in the 2006 Recommendation ¹
	overcoming socio-economic disadvantage and reducing early school leaving
X	awakening and reinforcing creativity and innovation
	extending participation in educational opportunities through sports activity

If you have ticked an objective (5.7) and/or priority (5.8) above, please explain in detail the concrete measures or activities you intend to take to address it/them:

Day of Earth – videoconference.
 Advert posters - PC graphics, artwork.
 Discussion and exhibition – introduction of partner schools.
 Art from waste bins.

5.9 EVALUATION

How will you evaluate whether the aims of the partnership have been met and the expected impact has been achieved?

Evaluation

- feedback from parents, other partners, public /community
- evaluation at each partner school (questionnaires for teachers and pupils)
- teachers meetings (valuate sectional projects, farther procedure planning)
- work meeting
- report sending to the coordinating school
- valuation on web sides

5.10 ACTIVE INVOLVEMENT

If your partnership focuses mainly on pupil involvement, please explain to what extent they will be involved in the planning, implementation and evaluation of project activities.

And/or

If your partnership mainly deals with pedagogical or management issues, please explain how all relevant staff will be actively involved in planning, implementation and evaluation of project activities.

Pupils take part in all planned activities, fulfilment of the aims depends on pupils work
 Pupils activities: acquiring information, PC work, art work, presentation of the project and pupils work, survey within family, work in nature
 Participation on planning – planning programme, games and competitions for Day of Earth.
 Participation on evaluation - evaluation of questionnaires and surveys, making selection and evaluation of the best activities and art work.

¹ Recommendation 2006/962/EC of the European Parliament and of the Council of 18 December 2006 on key competences for lifelong learning, OJ L 394/10 of 30.12.2006.

The eight key competences are: Communication in the mother tongue; Communication in foreign languages; Mathematical competence and basic competences in science and technology; Digital competence; Learning to learn; Social and civic competences; Sense of initiative and entrepreneurship; Cultural awareness and expression.

5.11 INTEGRATION INTO LEARNING AND/OR OTHER ONGOING ACTIVITIES

If the project focuses on pupil involvement, please explain how the project will be integrated into the curriculum / learning activities of the participating pupils in each of the participating organisations.

And/or

If your partnership mainly deals with pedagogical or management issues, please explain how the project will be integrated into the ongoing activities of the participating organisations.

Integration of the Partnership into the curriculum

- the project topic will appear in the curriculums of particular subjects in different ways (e.g. usage of natural resources, environment protection, practical activities – observation, results evaluation, graphic handling etc.)
- main subjects – Biology, Chemistry, Civics
- additional subjects: foreign language (new vocabulary, environmental topics), mother language (texts with special topic), Art, Music (artificial interpreting the topic)

5.12 DISSEMINATION AND USE OF RESULTS

How will you disseminate and use the results, experiences and, where applicable, products of the Partnership?

- in the participating organisations?
- in the local communities?
- in the wider lifelong learning community?

Distribution of results

- expositions of the materials
- information wall posters in public places
- school web sides – project, links to homepages of the partner schools
- regional media, school magazine
- power point presentation

Effect on pupils

- strengthen whole key competence
- growth the knowledge connected with the problems of nature resources usage and environment protection
- development the ability of tolerance and so learning about the life in another countries
- improving foreign language communication
- affect emotional, aesthetical and ethical relations of pupils to the problems of ecology
- improving the ability to have an opinion, report and defend the opinion or an idea
- use ICT and computer software (excel) to calculate and elaborate on results of their researches

Effect on staff

- team work by fulfilling the assignment resulting from the project
- the knowledge abilities acquired from the project are used in professional and private life
- farther self-education connected with enlarging the knowledge leading to the successful achievement of the project aims
- closer contact with pupils, develop their imagination and fantasy
- learn (about) farther (unconventional) foreign languages
- communicate and cooperate using ICT

Effect on local communities

- improve cooperation between the authorities and the school
- cooperate with local organizations (data collection, their analysis and hand over)
- improve the environment in the near surroundings

6. PROPOSED ACTIVITY DATA

6.1 WORK PROGRAMME: PLANNED ACTIVITIES, INCLUDING MOBILITY ACTIVITIES, OF EACH PARTICIPATING ORGANISATION

Educational activities

Please summarise in the table below the planned Partnership activities and mobilities for all institutions in the Partnership. Please present the activities for both academic years 2008/09 and 2009/10, in a chronological order. The eligibility period of activities starts on 1 August 2008 and ends on 31 July 2010.

Please note that mobility activities can only take place between organisations receiving funding to participate in the Partnership (including associated partners), or to events organised by Lifelong Learning (or predecessor) Programme projects or networks (e.g. Comenius Network conferences). Mobility can be undertaken by staff and pupils of the participating institutions, representatives of associated partners and - in the case of mobility involving persons with special needs - accompanying persons such as parents, guardians or carers. What is counted as "a mobility" is one trip abroad by one person. Only transnational mobility² (i.e. travel abroad) counts for the calculation of the minimum mobility numbers.

Approx. starting date	Activity/mobility description	Destination country (for mobility only)	Which partners involved
10/2008	Project meeting	CZ	CZ, SK, LT, PL, TR, BG, ES
10/2008	Discussion and exhibition – introduction of partner schools		CZ, SK, LT, PL, TR, BG, ES
11/2008 – 02/2009	Mapping the situation of using natural resources in individual countries		CZ, SK, LT, PL, TR, BG, ES
03/2009	Advert poster – promotion of using renewable resources of energy (PC graphics, art work)		CZ, SK, LT, PL, TR, BG, ES
04/2009	Day of Earth – videoconference (presentation of advert poster), staying in nature (educational competitions and games)		CZ, SK, LT, PL, TR, BG, ES
05/2009	Project meeting	SK	CZ, SK, LT, PL, TR, BG, ES
09/2009	Exhibition in public places – first project year		CZ, SK, LT, PL, TR, BG, ES

² "In-country" mobility to or from Overseas Countries and Territories and ultra-peripheral regions of the EU will also be considered as transnational mobility, e.g. mobility by a beneficiary from mainland France to a partner in Martinique.

Funding requested and estimated number of persons participating in mobility (per participating organisation)

For each of the participating organisations, please select the "Partnership type" that best corresponds to your Partnership work plan for the whole 2 year duration. Please note that each type is linked to a minimum number of mobilities to be carried out during the grant agreement period – these minimum numbers have to be respected when entering the numbers of planned pupil and staff mobility into the table. The grant amounts for each Partnership type are defined at national level and they can vary from one country to another. Please make sure that, for each of the participating institutions, you have selected the grant amounts applicable in the country and for the programme in question.
